

Animal Reiki Crystal Grid

Sioux Strong received the information to develop an Animal Reiki Crystal Grid to give continuous distance Reiki to animals when she was on Mt. Kurama, Japan in 2017 in a Reiki Master Class with William Rand and Colleen Benelli. Sioux and Robyn Benelli did Reiki journeys seeking more information as to what the grid would look like and the qualities of it. Robyn then created the grid based on the information received.

The outer petals represent the many types of animals that exist on the planet and include human beings who are a part of the animal kingdom. The inner knotwork of petals represent the roots of the Tree of Life reaching out to the animals. They represent the interconnectedness of all living beings from the plants to the animals, to the humans. They represent the circle of life, our ecosystem, the divinity of life. We are all related, we are all one, we are all love.

The idea for the Animal Reiki Crystal grid was inspired by the World Peace Crystal Reiki Grid created by William Rand and taught in the Usui/Holy Fire® III Master Class for distance Reiki. It is still appropriate to use your current Reiki Crystal Peace Grid image
